Accreditation Data Points

The Counselor Education and Supervision Program at Kent State University has three programs that are fully accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). These programs include a 60-semester hour master’s degree program in Clinical Mental Health Counseling, a 48-semester hour master’s degree program in School Counseling, and a doctoral program in Counselor Education and Supervision.

As required by CACREP and the Council for Higher Education Accreditation (CHEA), the following four data points must be posted on our website: (a) number of graduates in the past year, (b) completion rate, (c) licensure or certification examination pass rate, and (d) job placement rate of students / graduates. The following data mostly pertains to the Summer 2016, Fall 2016, and Spring 2017 terms (i.e., the 2016-2017 academic year).

Graduates:
- Clinical Mental Health Counseling (M.Ed.): 40
- School Counseling (M.Ed.): 13
- Counselor Education and Supervision (Ph.D.): 9

Completion Rate: Please note that the following completion rate is estimated as students in our programs can be enrolled on a full-time or part-time basis and have six years to complete their master’s degree and nine years to complete their doctoral degree.
- Clinical Mental Health Counseling (M.Ed.): 90%
- School Counseling (M.Ed.): 90%
- Counselor Education and Supervision (Ph.D.): 75%

Counselor Licensure / Certification Pass Rate: In Ohio, graduates of the Clinical Mental Health Counseling program take the National Counselor Examination (NCE) for initial state licensure as a Licensed Professional Counselor, and then take the National Clinical Mental Health Counseling Examination (NCMHCE) to obtain independent state licensure. Graduates of the School Counseling program take the Ohio Assessment for Educators to be licensed as School Counselor / Professional Pupil Services license specializing in School Counseling. Graduates of our doctoral program may seek one of the previous licenses and are not calculated separately.
