Adding Textbook Information

To add textbook information to your course, in the Course Content area, click on Partner Content. Three options will be presented:

- Search for textbook – see steps below
- Manual entry textbook – manually enter textbook information
- Content market – available partners are listed from which to choose

Clicking on Search for textbook will present search options for ISBN, Title, Author or Subject. The Type options are All, Digital or Print.

Once the desired textbook has been located, choose Select. Options for Required or Recommended will be available, along with options for description, availability dates, tracking and display dates. The textbook will be added to the content list.

For additional support, contact the Helpdesk at 330-672-4357 (HELP) or visit support.kent.edu.
