This memorandum is intended to explain the Library's arrangement with YBP Library Services, a Baker & Taylor Company, to provide selected publications on an approval basis.

The explanation is presented in three parts. Part I briefly describes the procedures which govern billing, shipment, account structure, discount, and returns of materials provided on approval. Part II outlines the technical support provided by YBP. Part III lists the instructions for coverage of specific continuation titles on the plan, the Approval Plan Publisher Profile or “press list,” the plan's subject parameters, and the non-subject qualifiers which limit the plan.

Both the Library and YBP recognize that some changes to these guidelines may be necessary as the program evolves over a period of time. Any change in substance will be recorded in a written communication from YBP to the Library.

I. GENERAL PROCEDURES

A. Billing:

1. A 3-part invoice will be included in each shipment with books listed alphabetically by Title.

   Payment will be made from this invoice.

2. A 4-part bibliographic form will be included in each book for the Library's use.

3. The notation “APPROVAL ORDERS” will appear on all invoices and shipping labels.

B. Shipment:

1. Shipments will include notification slips (title announcements sent in lieu of a book).

2. Shipments will be made via United Parcel Service on a weekly basis. YBP will pay for shipping to the Library.
3. Materials will be shipped to the following address:

Stark Campus Library
Kent State University
6000 Frank Ave. NW
Canton, OH 44720

C. Account and Plan Structure:

The Library’s account structure is indicated in the table below. Sub-accounts shown in **bold** are associated with the approval plan.

</tr>
</tbody>
</table>

D. Discounts:

The Library will be billed at list, less 18.5% for materials available in North America, with the exception of certain association and society publishers.

Occasionally, depending upon the presses selected for the approval plan, books may be given a service fee.

E. Returns:

1. Under the provisions of this Approval Plan, YBP will ship to the Library books selected according to the press, subject and non-subject parameters described in Part II. The Library reserves the right to return titles which are deemed inappropriate to the Library’s collection for reasons of content, subject, style, format, quality, etc.

2. Returns are not expected to exceed 5%.

3. Titles may be returned in resalable condition within 120 days of date of YBP invoice.

4. Returns may be shipped via UPS at YBP’s expense.

F. Management Reports

Collection Management Reports can be submitted by the library via GOBI, YBP’s on-line collection management tool. Various report templates can provide expenditure reports according to the library’s specifications, as well as open order reports and other approval plan support materials such as press lists, and standing order instructions.
II. TECHNICAL SERVICE SPECIFICATIONS

A. GOBI

YBP’s GOBI (Global Online Bibliographic Information) databases and services via the World Wide Web are available to the Library without charge. GOBI provides a sophisticated acquisitions and collection development support system, with access to querying, selection, ordering and reporting functions across YBP’s entire database of titles. The Library should contact their bibliographer-liaison to register for GOBI access.

III. APPROVAL PLAN SPECIFICATIONS

A. Presses:

The plan as initially specified will include all university press, trade, scholarly and professional publishers named on the Library’s Approval Plan Publisher Profile, or press list. The Library will be offered the publications of these and any new approval presses which may become active.

The subject and non-subject parameters below apply to all publishers covered by this Approval Plan.

B. Subject Parameters:

Materials offered on this plan will reflect the requirements of an undergraduate library with many areas requiring materials at an ‘applied’ or ‘practical’ level.

Restrictions indicated on the subject parameters described below are due to both the developing nature of the plan and to priorities in the Library's collecting policies.

The following subject parameters describe the subject focus of the plan. Notification slips will be sent in lieu of a book for all subjects preceded by an "S". Nothing will be shipped for all subjects preceded by an "X", except as indicated in the notes. Exceptions and clarifications to the general instruction for a subject are noted beneath the subject.

C. Special Coverage (beginning May, 2002).

NEW YORK TIMES BOOK REVIEW: For titles reviewed in the New York Times Book Review (NYTBR), send notification slips at all content levels for FICTION and NON-FICTION titles listed in the BESTSELLER list. This is a supplementary service and may result in slip duplication of profiled titles. Assign fund code [STBES].

CONTENT LEVEL DEFINITIONS

General-Academic (GEN-AC):

This category is applied to works of scholarship which assume no prior knowledge of a topic. Accessible to any college or university student, these are often studies of broad subject areas or of topics of high current interest. Some titles not strictly academic in nature, such as fiction and poetry of literary quality, and quality works of journalism or other non-fiction, also would be placed here. All General-Academic titles would be appropriate for undergraduate study.

Advanced-Academic (ADV-AC):

This level applies to all works of scholarship treating narrowly defined or difficult topics, but generally accessible to advanced students or faculty within a discipline or to those who may be reading in a specialty other than their own. Some Advanced-Academic titles also are appropriate for use by upper-level undergraduates.

Professional (PROF):

This level applies to works of extreme technical difficulty or treating such esoteric subjects as to interest only well-trained specialists in the field. Practical guidebooks written for working professionals in fields such as Education, Business, Law, Medicine, Nursing, or Social Work, even when not highly technical, also would fall into this category.

Popular (POP):

Books rated at this level are primarily intended for retail sale to a very broad readership beyond colleges and universities. The Popular level would include genre fiction such as mysteries and science fiction; inspirational poetry or spirituality; cookbooks; most travel guides; many biographies of athletes, movie stars, and other entertainment figures; and materials intended for casual reading or individual self-help or instruction, as opposed to academic or professional study.

Juvenile (JUV):

This category applies to books intended to be read by children. The YBP approval plan program treats only those children’s titles published by university presses. We do not treat the thousands of children’s titles released by trade publishers.
