Clinical Experience Advisory Council

Meeting Minutes

From March 2014

➢ Most programs have agreed to extend their placement calendars to 14 weeks; including ADED, MCLS, and TESL; may actually be ‘13 weeks’ after discounting ‘Spring Break.’ Need to meet OBR minimum of “56 Days of instructional contact”; concern over test dates and snow cancellations to be addressed.

➢ Handout providing overall comparison of tasks related to ‘edTPA’ and ‘RESA’ that students will face under their initial licensure.

➢ Discussion of intentions for test scores; reminder to partnering school districts that these should not be used in an interview for hiring practices; edTPA is for assessment of teacher-prep only, and videotaped lessons for TPA should not be used in an interview.

➢ Dr. Arhar discussed the transition from Praxis to OAE assessment for teacher candidates; KSU doing well, but needs to work on Math and SPED items.

➢ Provided KSU handouts describing our ‘Co-Teaching’ model; review of various methods such as ‘station teaching’, ‘parallel teaching’, ‘one teach-one guide’; as well as characteristics of what Co-Teaching “is” and what it is “not”.

➢ Once around the room: including ways to enhance partnership with districts, KSU upcoming ‘portfolio event’ in April; pending job opportunities at area schools.
