This course, offered during summer intersession, provides participants with an opportunity to be immersed in Mexican culture for 8 days. During this time, participants will interact with the students and teachers at a school for the deaf in San Miguel. Participants will learn about the experience of being deaf in Mexico, take a class in Mexican Sign Language, and have the opportunity to engage in tutoring/teaching with students of all ages. There will also be ample time to explore beautiful San Miguel, visit ancient Mexican Pyramids, enjoy local hot springs, and shop at a glass factory run completely by individuals with special needs.

Faculty Instructor: Karen L. Kritzer, Ph.D.
Associate Professor-Deaf Education
School of Lifespan Development and Educational Sciences
