Dear Colleagues,

As the spring 2016 semester comes to an end, I would like to acknowledge the hard work and many successes of the CoN faculty. In addition to several internal proposals, CoN faculty members have submitted 16 external funding requests during the current fiscal year—an increase over previous years. We have also submitted more federal grants than in prior years.

Our increased research productivity reflects a commitment not only by CoN faculty, but also the KSU administration. The University has bolstered its support of faculty research by hiring Paul DiCorleto, associate VP for research and faculty development, for a cabinet-level position. The University will also launch a plan for five new centers of excellence, including a population health center which could take advantage of expertise by CoN researchers.

This is an exciting time to be at KSU and the CoN. Although we have much work ahead of us, I am thankful for all of your efforts and eager to help you pursue your research and scholarship goals.

Associate Dean for Research

In Memoriam

Cyndi Roller, Ph.D., RN, CNP, CNM, a passionate nurse practitioner and researcher, passed away suddenly on Feb. 28, 2016. Our academic community mourns the loss of an extraordinary colleague. We will miss her sharp mind, deep understanding of women’s health issues and commitment to transgender individuals’ access to healthcare. With gratitude and in her memory, we honor her as a person, educator, colleague and scholar. A scholarship fund has been established in her name.

Dr. Cyndi Roller’s research team presented two posters at MNRS in March based on her research (Hossam Alhawatmeh, Amy Veney, and Marci Leifson—photo, left).
