Wikis

Wikis allow the course members to contribute to a single source of information. Not all courses will have a wiki, and it is at the discretion of the professor in which place and manner the Wiki will appear.

- The most common ways to access a course wiki will be from Course tools → scroll down → Wikis.

- Left Navigation or from a link on a content page.

- Link on Content page
After accessing the Wiki, the user will be able to view content added previously, add pages to the wiki and edit content. To create a wiki page, click Create Wiki Page, follow the prompts and click Submit.

To edit a content page, click the edit content button and follow the same steps as above.
